The Nipomo Library Presents

Creating Digital Art

Digital Art Exhibition • July 2 - July 31

This presentation will dive into the basics of creating digital art using the powerful combination of an iPad, an Apple Pencil, and the Procreate app. The process of creating digital paintings in some ways is similar to traditional media and in some ways very different. The presentation will emphasize the steps artists take to create amazing images using digital tools.

First, the presentation will introduce you to the tools of the trade: the iPad, a sleek and portable canvas for digital creation, and the Apple Pencil, a precise and responsive stylus that brings your artistic vision to life with unparalleled accuracy. Next, we'll delve into the Procreate app, a robust digital art studio that empowers artists with a wide array of brushes, layers, and editing tools. With Procreate, the possibilities are endless, whether you're sketching, painting, or illustrating. Come and get inspired.

Presentation and Demonstration

Saturday • July 27, 2024
1:00 - 2:30 PM

Presented by: Fred Ventura, Ph.D.
